

How to be a good bunny friend!

- 1 **Sit on the floor** — Never stand up while holding a bunny. They might jump and get hurt!
- 2 **Be gentle** — Pet softly. No squeezing, poking, or pulling ears!
- 3 **No loud noises** — Bunnies are scared of loud sounds. Use your quiet voice!
- 4 **Let them come to you** — Do not chase the bunny. Wait for them to say hi!
- 5 **No picking up** — Only grown-ups can pick up bunnies. It is tricky!
- 6 **Wash hands first** — Clean hands mean happy bunny!
- 7 **Give veggies** — Bunnies love lettuce and cilantro. Ask a grown-up first!
- 8 **Watch and learn** — The best way to know what the bunny wants? Watch what they do!
- 9 **Be patient** — Bunnies are shy at first. Give them time to trust you!
- 10 **Ask a grown-up** — If you are not sure about something, always ask a grown-up for help!

Remember: Bunnies are special pets. They need gentle friends like you!
